Senior Data Engineer, Amazon Ads

Professional Experience

Senior Data Engineer, Amazon Ads

October 2024 - Present

Currently working as a Senior Data Engineering in Amazon Ads supporting workflows to improve productivity for Ads Sales organization. This role involves building data models, data pipelines and event driven systems for integrating multiple upstream and downstream applications.

Data Engineer, Meta

January 2024 - October 2024

At Meta, I worked in the Ads Monetization org. I was responsible for building data models, data pipelines and dashboards to measure the reliability, performance and adoption of Meta Ads Manager features such as GenAI Ads and contextual e-commerce ads as well as backend services.

Senior Data Engineer, Amazon/AWS

August 2013 - December 2023

I worked as a DE in diverse set of orgs at Amazon/ AWS

- At Amazon Ads:
 - Leading an re-architecture of data systems, building a new Data Lake.
 - Building Event-driven ETL pipelines on AWS
 - Building a system to measure Data Quality datasets and enable alerting.
- At Amazon Go:
 - Responsible for building Data Model and data pipelines to measure the Accuracy and Cost of Just-Walk-Out-Technology which powers Amazon Go Stores and supporting the Customer Experience Data Science team.
- At Amazon Web Services:
 - Responsible for designing the Data Lake for AWS Sales team which served as a scalable backend for the Analytics Layer.
- At Transportation systems:
 - Led the project involving migration from Oracle to Amazon Redshift.
 - Responsible for tracking business metrics such as Scheduled Deliveries

Associate Technical Consultant, Teradata

February 2010–July 2013

This role involved working on pre-sales proof of concept projects for potential clients to evaluate Teradata vs the competitors. My roles involved the following

- Physical Data model design including indexing and partitioning scheme.
- SQL/ETL Optimization
- Writing automation scripts in Python, Teradata Utilities

Technical Skills

Data Warehousing, Amazon Redshift, AWS, Airflow, Spark, Presto, Teradata, SQL, Python, Scala

Education

M.Tech. Software Systems, Birla Institute of Technology & Science
B.E. Computer Engineering, University of Pune

2014-2016
2005-2009
